Vasalgel Update

This has been a pivotal year for Vasalgel

As the year draws to a close, we **thank you for your enthusiasm and support** for the development of a reliable, safe, cost-effective, and reversible contraceptive.

[You can make a year-end donation here.](#)

Revolution Contraceptives, the social venture we created to develop Vasalgel, spent much of 2018 conducting laboratory work to refine the performance of Vasalgel, including implantation and reversal techniques. The team grew to include additional experts in the areas of investor relations, product development, and regulatory and clinical strategy.

We'll share further news with you in the new year. **We wish you peace and joy in 2019!**

--The Vasalgel Team
