

Support Vasalgel this Giving Tuesday

More than 85,000,000 unintended pregnancies happen around the world each year; half end in abortion. Men who aren't relying on their female partners for contraception have few choices: condoms, vasectomy, withdrawal, or abstinence. We're developing a new option: Vasalgel.

Our mission is to provide men with the first effective, long-term, and reversible option to control their fertility.

Giving Tuesday, December 3, is the global day of giving. We hope you share our belief that Vasalgel will benefit millions of people worldwide.

[Please donate to support the development of Vasalgel.](#)

Tips: Making the most of your charitable giving

Regardless of what you support with a charitable donation, here are some practical ways to increase your giving power. (Thanks to the Center for Election Science for these tips.)

- Double your gift by participating in your employer's matching gift program, if they have one.
- Check to be sure your gift will be used to support the things you care about most. When you donate to Vasalgel, 100% of your contribution goes directly to advancing this male contraceptive!
- Save online fees by sending a check. The convenience of online giving is wonderful, but the processing fees charged by merchant bankcard vendors adds up. Consider giving the old-fashioned way and mail a check.

Thank you so much for your continued support of Vasalgel male contraceptive development!
