

Vasalgel Update

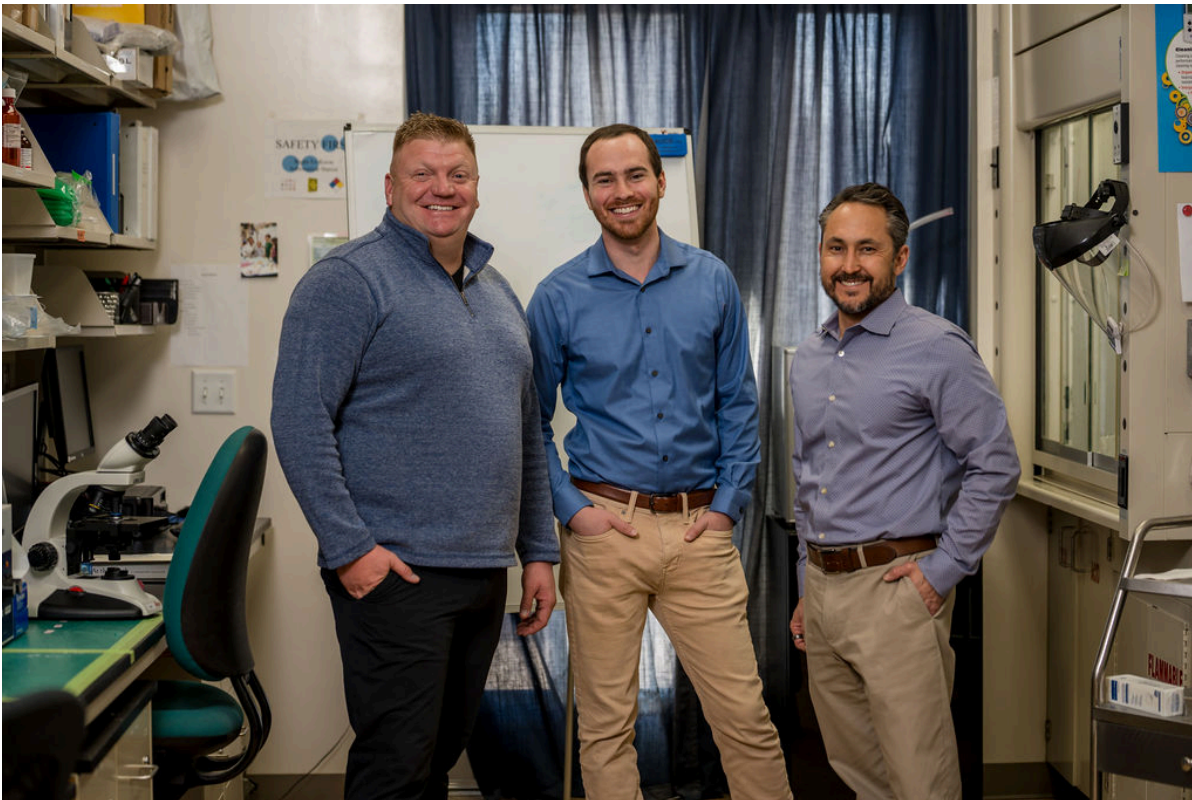

Progress on Plan A™ Contraception

Hello <<First Name>>,

We are happy to bring you an update on the status of the Vasalgel® male contraceptive hydrogel!

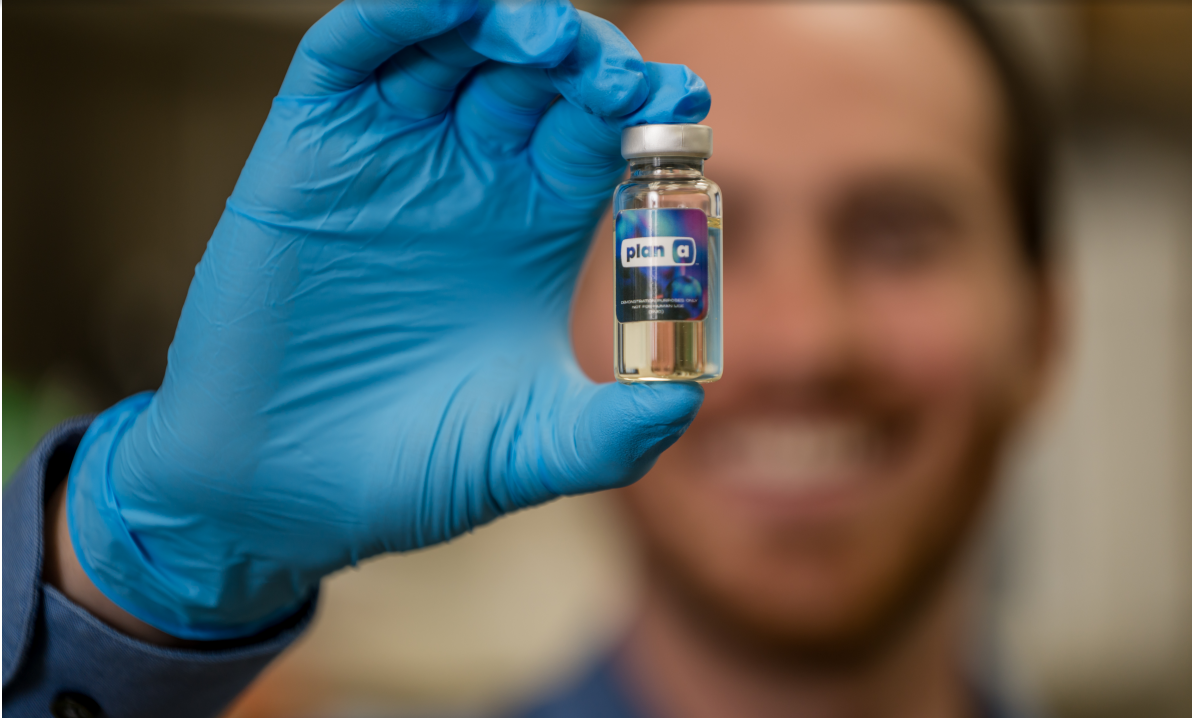

For those who may have missed our earlier communications, our collaboration with NEXT Life Sciences began in 2022, marking the beginning of an exciting venture aimed at finally bringing Vasalgel to the forefront of the contraceptive market. In just over a year's time, progress toward that goal has been accelerating quickly.

Moving forward, to continue staying updated on Vasalgel along with exclusive updates around NEXT's progress, be sure to join their [mailing list!](#)

The Team at NEXT Life Sciences

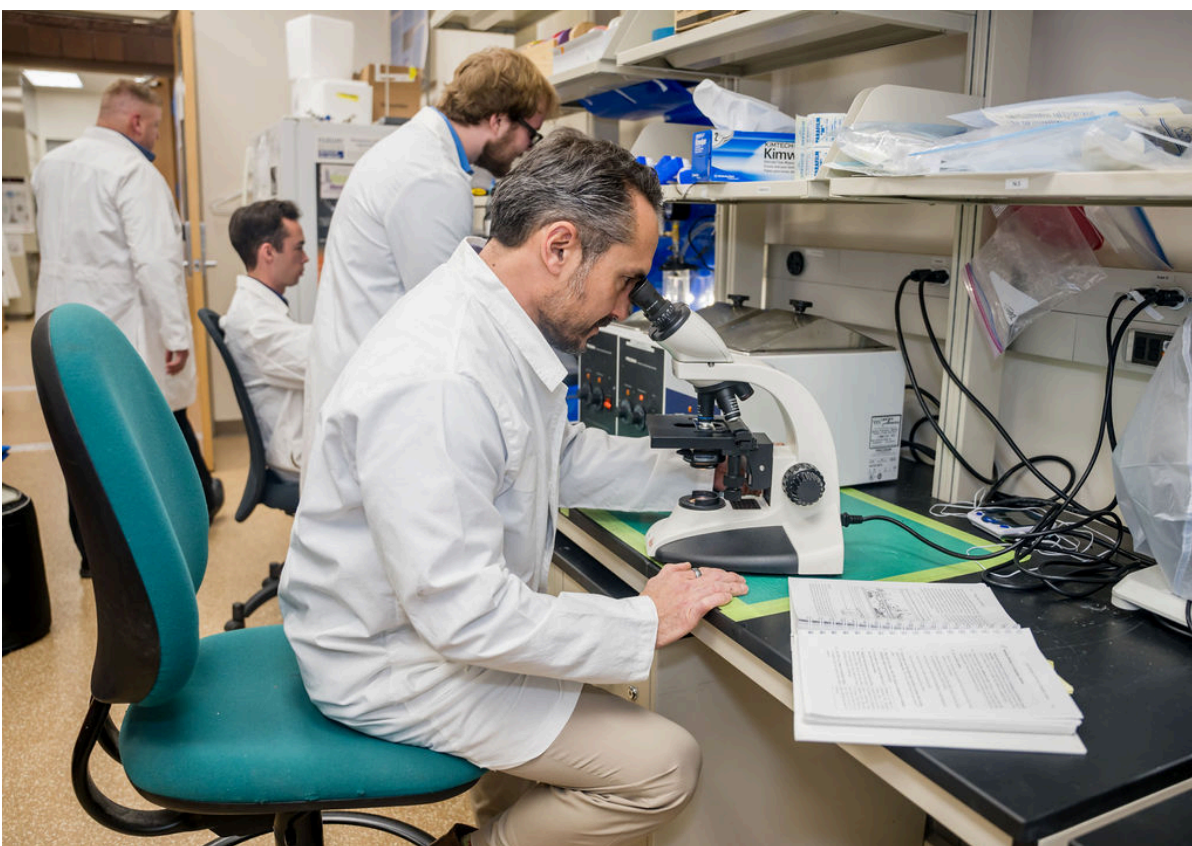

Under the leadership of L.R. Fox, NEXT Life Sciences aims to empower individuals with the ability to choose when and if to have a child. Fox has assembled both a highly skilled team to lead the technology into clinical trials and the venture capital interest needed to financially drive the product forward. The team at NEXT is packaging the Vasalgel technology along with a proprietary delivery system to market a combined product called [Plan A™ Contraception](#) — which is designed to be the first long-acting, reversible male contraceptive.
